

February 2015

MID-WINTER WARNING

Please be VERY aware of “black ice.” This almost-transparent form of ice can sometimes accumulate on outdoor surfaces and is extremely difficult for the naked eye to detect. During this time of year, the Security department responds to a high number of emergencies that are the result of a person slipping and falling on black ice. Storing Ice Melt or Salt in the house is an excellent idea, as slippery walkways can be treated without having to first use those walkways to access the Ice Melt or Salt your garage.

Please also be very aware that black ice is often found on roadways and can make driving quite dangerous. Be sure to obey all local traffic signs and give yourself plenty of room for stopping!
