

September 2015

The Hershey's Mill Security Department would like to remind residents who are departing for vacation, regardless of how many nights/weeks/months they will be away, to stop by the Main Gate Security Center before leaving in order to fill out a "Vacant Premises" card.

These cards allow Security to know the dates and length of vacation, where the resident can be reached in case of an emergency, and whether there will be any unusual traffic (construction work, part-time house sitting, timed lights...etc.) in the unoccupied home while the resident is away. This information can prove to be invaluable to the Security Department when responding to incidents in and around vacant residences!
