

FROM THE MAIN GATE

October 2017

The Hershey's Mill Master Association has concluded that the UPASS system gate entry devices (Windshield Tags, Proximity Cards, and Headlight Tags) should serve as the sole means for entry into Hershey's Mill; and as a result, **the Clicker and Swipe Card gate entry options will be phased out by November 1, 2017.**

Understanding that the elimination of the Clicker/Swipe Card devices will impact a majority of Hershey's Mill residents who still possess and use these devices on a frequent basis, the Hershey's Mill Security Department has implemented a Clicker/Swipe Card Replacement Program that will assign residents a free UPASS Proximity Card for every Clicker and Swipe Card assigned to their residence.

In May 2017, every home in Hershey's Mill was mailed a letter containing information regarding the phasing out of the clicker/swipe card system, resident instructions for receiving their free replacement, and answers to frequently asked questions pertaining to the replacement program. If you did not receive this form in the mail, please contact Director of Security Marc Fraser at 610-431-4006.
