

Last Call for Transition to Verizon FiOS

Neighbor to Neighbor - please check with your friends and neighbors in Hershey's Mill, especially those who may not use email, to be sure everyone is aware and knows the time to transition to Verizon is Now, Right Now.

1) Comcast has notified that **all TV services will be turned off May 29**, unless HM residents have made arrangements to continue on a longer term contract. Comcast sent a letter to this effect. We are concerned that everyone who may possibly be affected may not have received this letter.

2) Every week, we are contacted by someone that **knows nothing** about the Verizon transition. Please double check your village residents.

3) Every week, we are contacted by Early Adopters who have not migrated to Bulk Rates yet.

4) Landmark Day: Today, Thursday, May 24 at 1 pm in the Community Center is the last of 100+ Presentations made on the Verizon Transition.

Contact Us for Assistance:

We are standing by, ready and able to assist. If you need printed materials, we have them. If anyone needs emailed instructions, we will send them. Anyone may email and advocate on anyone else's behalf. Here is the important **information we must have:**
