
The Inverness "I"

Vol. 13. No. 4.

October 2022

From The Editor

August 4th marked 11 years since I moved into Inverness Village. I can't believe how the time has flown by! I have gone from being the 'new kid on the block' to being one of the longer-time residents. Of the 97 homes in Inverness, 63 have changed owners, some more than once, since I moved here. So have I seen a lot of changes in that time? Well, in some respects yes, and in other respects no. I've met new neighbors and made new friends, but in terms of changes to the Village itself, for many years there was not much new going on. However, all that is changing now.

Change is good, though it's not always easy. But with the hard work and persistence of some of our newer residents and new Council members, our siding replacement project is now underway. This is a much-needed improvement, which has been a long time in coming. Our Landscape Committee has become proactive in handling our landscape and tree management needs. We even have a group of residents, the Clipper Brigade, who have volunteered to do small landscape jobs in our Village. We have new members on our Decorating Committee who are sprucing up our Village for the holidays. We have new Village signs to add to the beauty of our community. This issue of the "I" includes information about the work being done by these and other committees in our Village. We thank all those who volunteer their time for the betterment of all of us.

Also in this newsletter, Ed Isselmann has provided worthwhile information on the HM Master Association and the many issues being addressed in the whole of Hershey's Mill. George Colby offers insight on money matters within Hershey's Mill. Penny Zimmerman writes of issues with driving and parking in our Village. Plus much more, including new neighbor interviews, men's and ladies' luncheons, and a fun Trivia game to play.

I hope you find this newsletter to be informative.

Mary Lou Perry

From The Village President

It is truly hard to believe that summer is officially over, and fall has begun! Our surroundings remind us of the beautiful time of year we are in and also of what is ahead...brrrrr! In this communication with our Inverness residents, I'd like to discuss three items: Hershey's Mill Master Association updates, the Inverness Work Log Report and Council business.

The Hershey's Mill Master Association generally meets on the first Thursday of each month. Those in attendance are the village council presidents or an appointed representative of the village as well as Ed McFalls, Managing Agent for Hershey's Mill. Various items are on the agenda. In the two most recent meetings (August and September) the major discussion points revolved around storm water management and 2023 budget planning.

With regard to storm water management, there is considerable work that has been done and more to come. It is difficult to talk in finite terms with regard to this project since water is such a fluid subject (pun intended). The area across Hershey's Drive from the Community Center has been converted into a water retaining area to both direct and reduce the speed of water runoff from the Westbrook Village area. That village sustained major water damage last year. Also, there has been considerable work done under Chandler Drive near Springton Village again to reduce the speed of storm water runoff.

This year, more attention is being paid to the villages of Jefferson and Ashton to reduce the possibility of severe flooding. Also, attention is being paid to some underground pipes going through Yardley which have either shifted in their pitch or partially collapsed, thereby affecting their integrity. As a result of these measures which must be addressed now, the Master Association has decided to temporarily table the expansion of the Community Center.

(Cont'd on page 2)

From The Village President *(Cont'd from page 1)*

Once the storm water management situation is remedied, discussion on the expansion can continue.

As far as the 2023 HM Master Association budget is concerned, quotes and pricing are being gathered by the finance committee and should be presented at the next HMMA meeting on Thursday, October 6th.

On another note, I wanted to review the process for work orders in Inverness Village. If a homeowner believes work needs to be done that falls under the Inverness HOA, a call can be made to CSK Management Company at 610-337-3500, or an email sent to info@cskmgmt.com. The owner will be advised if a written Action Form is required. Then a representative of the Inverness Maintenance Committee should assess the property to determine if the requested work fits the responsibility that is outlined on the Maintenance Chart found on pages 29, 30 & 31 of the Village of Inverness Rules and Regulations. If it is the Village HOA's responsibility, then the degree of urgency will be addressed by the Maintenance Committee. While this is happening, a liaison for the Maintenance Committee (**Louise DeNight**) will attempt to contact the owner and will keep them informed of the status of the work order. I really want to thank Louise for taking on this role which greatly helps owners feel more aware of what is happening. Over the last five years, over 800 individual projects have been recorded on this log with the great majority of them completed. Our goal is to continue to address these concerns, but more importantly to keep the owners informed of the status of their request.

Finally, I have been asked to address two comments in the last Inverness "I". The article "How HOAs Work" was extremely helpful and on target. But elaboration is needed. The one described homeowner's responsibility as "...if you took our homes, turned them upside down and shook them, we as homeowners are responsible for everything that falls out...". This is a good visual, but Council would like to point out that this seems to describe personal property rather

than real property from insurance terms. In addition to what falls out, owners are responsible for the entire interior structure from the end of the studs inward. So items such as drywall, interior framing, flooring, etc., would be the owner's responsibility, not the village HOA. The other item is more of an update to a statement. With regard to the Capital Contribution paid at settlement by new owners to the Inverness Village HOA, the article stated "Currently, this amount cannot exceed the quarterly HOA fee." This had been the case. However, in 2021, Council voted to increase that amount to two times the quarterly assessment effective January 1, 2022.

In closing, I want to thank all of those in our Village who work tirelessly by contributing their talents to help make Inverness Village an even better community than it already is. Please know that regardless of how small you may think your effort or talent could impact our Village, it will always be welcomed! Please volunteer!

The next Inverness open meeting is Thursday, December 1, at 7 p.m. I hope to see you all there.

Best!
Ed Isselmann

Save the Date!

The Inverness Holiday Gala will be held on Saturday, December 10 in the Community Center.

The evening includes a catered dinner, piano music, socializing, and the now traditional singing of "The Twelve Days of Christmas."

Details to follow

Getting to Know You - Dan & Denise DeLia

West Chester was the DeLia's hometown already and after looking at other "over 55" communities, Dan and Denise decided on Hershey's Mill as their future home (#760). Two things impressed them to move here: the established landscape with lots of

greenery and the game of pickleball, an interest they both share.

In downsizing, Denise and Dan moved from a 5-bedroom house to a 2-bedroom Donegal model. And to share this lovely house with them, Dan and Denise are welcoming a new addition to their family (and the Village) as of early August, an 8-week old female dachshund named Sweet Pea.

Sweet Pea in her doggie stroller

Sweet Pea will be company for Denise while she works at home in sales for a home care company located in Virginia. Luckily, Dan doesn't have far to go to work. He works in West Goshen as a CPA at Sterling Services with his cousin. The DeLia's have three children: Christina 30, Danny, 27 and Alison, 24.

Besides pickleball, Denise likes walking, bocce, and old movies from the 30's and 40's. And Dan, besides pickleball, likes ping pong, golf, and fishing, especially in Canada. And last but not least, the DeLia's have a vacation place to spend their free time, a house in North Wildwood, NJ.

Welcome to Inverness, Denise and Dan!

Judy Klanderman

Getting to Know You - Barbara & Chris Harvey

Jim and I had a lovely evening getting to know Barb and Chris, our new neighbors at 764. Both have spent many years in

the medical profession. Barb went to Bryn Mawr School of Nursing, graduated in 1969, and has had a variety of nursing jobs, from operating room, orthopedics, pediatrics, to GYN oncology. She was the Clinical Director for a Volunteers in Medicine practice, located in Cape May Court House, up until her move here.

Chris grew up in the Villanova area and attended The Haverford School, where he is now in their Sports Hall of Fame. He graduated from Dartmouth College in 1963, continued his education at Temple Medical School and did his internship and radiology residency at Bryn Mawr. It was there that he and Barb met, and as they say, the rest is history. They married in 1974 and have just celebrated their 47th wedding anniversary.

Chris and Barb have five children. Chris has three children from a previous marriage, and they have two children together. They have ten grandchildren aged 3 to 27. They came to Hershey's Mill to be closer to family.

Chris played many sports during his school years, and coached baseball for his sons for about 10 years. He is an avid golfer and enjoys playing pickleball.

Barb gets her exercise walking their German Shepherd, Coco, daily and watching grandchildren at least once a week. In her down time, she loves to read.

Their Marriott time-share and traveling are pleasures for them both. They have enjoyed an extended vacation in Scotland and England, and a river cruise down the Danube, among other trips.

Barb and Chris are friendly and outgoing and I know you will enjoy getting to know them!

Pat Aubry

Siding Project Update

As most, if not all of you know by now, our exterior siding project is underway. Over the last couple of months, the Braulio Construction Company has been hard at work replacing siding and making repairs to our homes that was similar to the work that was originally done on the garages. The scope of work so far has been about what we had anticipated with some homes requiring more replacement of materials and other homes not as much. This pattern is due to the fact that some homes are exposed to harsh weather and constant sun exposure. All homes are being thoroughly inspected and any rotted or compromised wood is being replaced from the top of the home to the ground level. This work is being monitored and inspected by East Goshen Township to make sure all work is in compliance. The finished homes will have no structural or cosmetic rot and will be in the best condition to last for many years to come. Our plan is to inspect the homes every couple of years to stay ahead of repairs and then repaint within an 8 to 10 year interval.

Braulio's team has completed construction of the Annex homes and is currently working their way down Inverness Drive. The homes in the Annex area are presently being painted and when that work is completed, we will invite any community residents to come to the Annex homes to see the completed work. It is our hope that this completion of the Annex homes will be in the next couple of weeks, weather permitting of course. Our goal over the next couple of months is to continue to take advantage of good weather to keep the momentum going! We will continue to communicate updates about the progress being made to our homes as needed. When it is time for your house to be worked on, a letter will appear in your mailbox informing you that work will start on your section of houses. We appreciate the community's patience as we continue the work of this project and encourage any questions or concerns be directed to:

Sam Crispin
Dave DeNight

Architectural Committee Report

The Architectural Committee works only when a request is received. We would like to request that neighbors who submit Architectural Request Forms (as required), and have the work done, do not make changes after the plans have been submitted and approved. The committee does not want to become a "police committee" and certainly does not want to have to enforce rules when original plans have not been followed and the work is completed. Examples of this would be shrubbery around propane tanks, door colors, among others.

Becky Green

Council Coordinator Report

As summer comes to an end, we begin a new season. With each new season comes change. Many changes are occurring in Inverness. Houses are looking bright and beautiful with siding repairs and paint. Another welcome change is the installation of new Village signs. After investigating the possibilities of refurbishing the existing signs, it was evident that the old signs were impossible to save. The wood rot and termite infestation solidified the decision to replace the signs. To that end, we now have new modern looking signs made from thick composite material, with deep carved lettering needing little maintenance. The base color of the sign is the same grey as the siding, the letters are painted Inverness red.

New lighting is also part of this project. With the help of Bruce Yeager and Dave DeNight, the issue with the electric source will be corrected. Both Dave and Bruce have spent hours solving this problem. Once we get the signs illuminated, we will have a lighting ceremony!

Another part of the project is the re-landscaping of the areas around the signs. Barbara Crispin has agreed to prepare a plan.

Thank you to Bruce, Dave and Barbara for all their help in getting this project completed.

Thank you for all your positive comments.

Marilyn Foley, Council Coordinator

Decorating Committee Report

I am pleased to announce the members of the new Decorating Committee: Barbara Harvey, Mary Flanagan, Jeanne Sugg, Marianne Pavlosky and Winnie Spoons. They will be sprucing up the main entrance to our Village, the island with the flag, and the annex entrance with beautiful autumn décor.

In December these lovely ladies will be dressing Inverness Village for the Holidays.

Anyone wishing to help is most welcome. Just inform Marilyn Foley of your interest and suggestions.

Marilyn Foley

Landscaping Committee Report

Please allow me to start my report with a personal thanks to Villagers who kept newly planted shrubs and trees alive during our hot and dry summer. Your efforts are much appreciated.

The arrival of October weather sets the stage for landscaping projects to begin. The removal of dead and declining trees is underway with requests for bids sent out in September. We focused on a handful of tall oaks situated close to homes and parking spaces. As funds allow we will select other trees that are also a threat to property. Individual homeowners will be called prior to the work crew's arrival. Our goal is to work our way to a healthy tree canopy by removal and replanting.

HM Landscaping completed the annual shearing of shrubs in August. The trimming of branches brushing roofs and removal of dead shrubs is the next step of contracted work. A follow up report will be sent when this work is completed.

The Clipper Brigade will continue to meet in October and November to clear the lowest dead branches from trees in our Village. Volunteers are always welcome. Contact me for more details. The September work day focused on trees in the common area between 748 and 749. *See page 10 for a photo of the group.*

The committee thanks Marilyn Foley for working with us to complete the Village sign replacement project. Shrubs and perennial plants will be planted at each Chandler Road location to enhance the attractive new signs.

Barbara Crispin, Landscaping Committee Chair

Ladies Luncheon

Limoncello, on Rt. 113, was the destination for the Inverness ladies in September. They enjoyed the private dining room and the lovely decor of the restaurant as well as the diverse menu. The lunch selections ranged from Italian specialties, such as various pastas, salads and chicken parmesan to hamburgers and steak sandwiches. One favorite choice was the flatbreads, with several delicious toppings. When they were leaving, all of the ladies agreed that Limoncello was an excellent choice for a leisurely and delicious luncheon. The luncheon was organized by Marge Brolly.

Men's Luncheon

Tuesday, September 13, was the date of the Inverness Men's Lunch. It was held at the same place as the restaurant formerly known as "The Office." This establishment closed during Covid and has recently opened under new ownership, management, and a new name ... "The Valley House." Sean, one of the owners, was very attentive and helpful, and Debbie our server was great. The interior of the place has changed a little as well as the staff and the menu. However, the private room upstairs with a private entrance still remains. This upstairs area, which accommodates about 20 people, gave the eight attendees plenty of space to gather. The two best parts of the lunch were the food, which was generous in proportions and delicious, and the people who attended. We all enjoyed ourselves and talked about everything from Inverness and Hershey's Mill updates to sports and kids, grandkids, and great-grandkids.

Looking forward to the next men's luncheon which is tentatively planned for early December or January.

The Hill We Climb by Amanda Gorman

The following poem is the last section of *The Hill We Climb*, written by Amanda Gorman and read by her at the inauguration of President Joe Biden on January 20, 2021. Gorman, only 22 years old then, is a graduate of Harvard and the first Youth Poet Laureate of Los Angeles. In speaking of the poem, she said, "There is space for grief and horror and hope and unity, and I also hope that there is a breath for joy in the poem because I do think we have a lot to celebrate at this inaugural."

But one thing is certain.

If we merge mercy with might, and might with right,
then love becomes our legacy and
change our children's birthright.

So let us leave behind a country better than the
one we were left.

With every breath from my bronze, pounded
chest, we will raise this wounded world into a
wondrous one.

We will rise from the golden hills of the West.
We will rise from the windswept Northeast
where our forefathers first realized revolution.
We will rise from the lake-rimmed cities of
Midwestern states. We will rise from the
sunbaked South.

We will rebuild, reconcile, and recover.

In every known nook of our nation,
in every corner called our country,
our people diverse and beautiful
will emerge battered and beautiful.

When day comes, we step out of the
shade, aflame and unafraid. The new dawn
blooms as we free it.

For there is always light,
if only we're brave enough to see it,
if only we're brave enough to be it.

(Courtesy of Carol Ellis)

Share the Road!

We have no sidewalks or driveways in Inverness Village. Therefore, it is extremely important that we share the road and take precautions to ensure the safety of all those on the road. Here are a few things to keep in mind.

Unless you are loading or unloading your car or running into the house for just a minute, please park your car in designated parking spaces and not in the roadway. We are fortunate to have plenty of parking in Inverness. Please use our parking spaces.

Walk opposing traffic - the shoulder on the left side of the road...facing oncoming traffic, as this allows drivers and pedestrians alike a much better opportunity to see the other approaching. If you will be walking around dusk or after dark, wear bright-colored clothing (reflective, if possible) and carry a flashlight, in order to make yourself more visible to motorists.

Ride (bicycles, golf carts, etc.) with traffic - on the right hand side of the road - and follow all traffic rules.

The speed limit in Inverness Village is 15 mph. Keep in mind that we have "blind spots" (corners where there are shrubs or trees that obstruct view, residents backing out of garages directly into the roadway). It is critical that motorists abide by the 15 mph speed limit. Please slow down!

Pedestrians should use extra caution and be aware that drivers may have a difficult time seeing them. Just because a pedestrian notices the vehicle coming toward them does not mean that the driver has also seen the pedestrian.

Pedestrians and motorists alike should always use caution when sharing the roadways within all of Hershey's Mill! All people (pedestrians and operators of automobiles, golf carts, bicycles...etc.) utilizing Hershey's Mill roadways and walkways are required to abide by the traffic rules and regulations of Hershey's Mill.

Let's all do our part to ensure the safety of all residents and visitors.

Penny Zimmerman

Trivia Test

1. Why is GPS navigation often a poor way for visitors to get to Inverness?
2. Name the hotel in downtown West Chester.
3. Who were the Mighty Macs?
4. How many units have turned over in Inverness Village in the last two years?
5. Why is that facility on the hill called a "golf club" and not a "country club"?
6. What is the current name of the museum on High St. in West Chester borough?
7. Why was Hershey's Mill laid out with no walking path along Chandler Drive?
8. What amenity originally expected for Hershey's Mill never got implemented?
9. In olden times, why were inns and taverns identified by picture signs?
10. How far does Route 202 extend? Name start and end locations.
11. Name two visitor destinations which are off Airport Road.
12. Identify three unused bank offices going west from the town offices.
13. When can one expect mail delivery in Inverness Village?
14. What is the speed limit within Inverness Village?
15. How did Sullivan house get its name?
16. Name the running water that goes by the community gardens?

Answers on Page 11

HOW MONEY COMES AND GOES AT HERSHEY'S MILL

An unofficial version

An insight into the operations of our community can be gained by following the published minutes of the HM Master Association (MA) and the Board of Directors (BD) thereof. The latter are particularly interesting as the board is where planning is done and future projects originated.

From time to time, one hears of amenity improvements being considered or maintenance needs recognized as requiring attention. For those who are curious about Hershey's Mill money matters, we will attempt to clarify how the money flows. As with each village, the ultimate source of needed funds is a levy on each household, so keeping informed is prudent.

Caution: The writer is not an official of the Mill. The following is his understanding of how things work.

The Mill operates as a non-profit organization with resident funding. (Hershey's Mill Community TV is a separate, self-supporting nonprofit organization). Operating funds for the Mill come from a monthly assessment from each house, and a Capital Improvement Fee assessed on newcomers moving here.

The monthly assessment levied by the Master Association (MA) on all units is not obvious as it is included in the condo fee for your village. This provides for the running and maintenance of roads, landscaping, and common amenities such as the Community Center, sports complex, pool, etc.

Included in the monthly assessment is a charge of \$7.50 per month per house which is designated as the Vision Quest Fund. This was instituted in 2010 to fund improvements to the Community Center, and was subsequently voted to remain in effect after that work was completed in 2012. This fund is used to fund new projects or upgrades to existing amenities.

A Capital Improvement Fund (CIF) was enacted in 2014 and is collected each time a house is sold in the Mill. The Uniform Planned Community Act - PA allows the collection of this fund to finance capital improvements. For conservative budgeting purposes, the MA typically assumes an average of 80 home sales each year. It is important to realize this money can only be used for capital improvements, not maintenance.

A current major need is for remediation of storm water management problems which have affected homes in several villages. There is also interest in expansion of the community sports area and an enlargement of the Community Center. That will be a major expenditure which will require the approval of the whole Master Association. In view of storm water management needs throughout the Mill, the MA has deferred further action relative to the Community Center for a few months.

The Village President is the resident's representation on the Master Association. Inputs relative to individual's feelings on expenditures can be conveyed to him/her.

George Colby

WOW!

Did I see that correctly?! Well, it IS a new day. A modern world day! What a treat!!

It all came about with the fact that Hershey's Mill has a new trash contractor, the Blosenski Company. I was out by the garage and there was the trash collection truck in front of me. I looked high up into the cab and Lo and Behold, it looked like a cute little ponytail. Upon looking a little closer, I saw there was a very attractive smiling young woman looking back at me. Now that is interesting! So I thought I would share just how interesting it is!

Her name is Laura and she has been driving these trucks for 24 years. Now, the trucks are 62,000 lbs. in tonnage weight. No small feat! She has her Class A license and is certified to drive tractor trailer trucks. The company is based out of Honey Brook, and Laura recently moved from Caln and now lives in Coatesville.

When asked how she got into this type of work, she responded that her uncle used to take her in his truck from the age of three years old and she was hooked!

A couple of other notes about Laura: People in other villages have spoken of how friendly she is and that she obviously treats her crew, the fellows who do the trash barrel emptying, with great caring.

And! Oh! Yes! Laura is a mother of four boys and one girl. You are really missing out if you don't greet Laura and receive her wave and smile!

It is a Home Run - a wonderful service and from a special person.

Barbara Colby

The Clipper Brigade

This group, organized by Barbara Crispin, was at work on Saturday, September 17. Clipper volunteers are:

L to R: Sam Crispin, Jini Pettijohn, Kathy Pietra, Jim Hill, Barbara Crispin, Sandy Yeager, Penny Zimmerman, Bruce Yeager.

Photo by Ed Isselmann who was also part of the group.

Writing

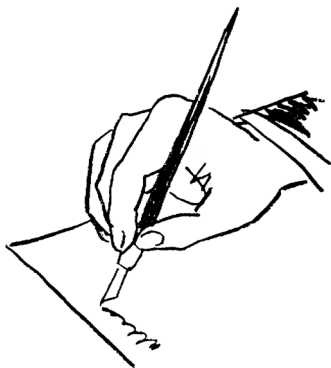

Have you ever experienced an emotion, encounter, adventure or discovery that is worth sharing with others or even just recording so it can be relived at a future date? Don't let the moment pass into oblivion. As soon as the emotion occurs or a photo is taken, think about your mood at that moment, and how you can describe it to preserve the reality of the occasion.

Every observation of something new and unusual provides a reason for sharing with others. While humans display imperfect attention to the spoken word, the written word, however, demands attention. The words are there. One can go back to them as often as desired to recall or reaffirm the contents, and the written word is readily shared with others.

Through reading one can relate to the experiences and accompanying emotions described by the author. We can envision ourselves in a similar situation, relate to the emotions involved, and learn from actions taken.

We encourage you to think of experiences or events that you would like to share with others. People are always interested in hearing of the lives of others.

The Inverness "I" is always encouraging news and thoughts from our residents. It's easy to share. Take pen or computer in hand and let your memories and thoughts flow. Don't worry about order, grammar, or duplication. Just write whatever comes into your mind. It will lead to an interesting work in no time at all.

And we will be pleased to help you share it with others.

George Colby

Trivia Answers

1. GPS often leads people to the East gate which requires an entry pass.
2. The Warner Hotel is on High Street in the Borough.
3. The Mighty Macs were a winning lacrosse team in the earliest days of women's college (now university) women's basketball competition.
4. By our count 19 units have changed hands in the past two years.
5. To be a Country Club you must have a swimming pool for the membership. Since it was decided that the pool should be open to all residents of HM, the facility is now called a golf club.
6. The Chester County History Center (CCHC) is well worth a visit.
7. It was assumed that everyone would drive wherever they were going.
8. The original concept of Hershey's Mill envisioned stables and horseback riding trails. Pictures, rather than written names, were used to be identified by everyone, even those unfamiliar with the written English language.
10. Route 202 extends from Wilmington, DE to Bangor, Maine.
11. Both the Helicopter Museum and the QVC Studio are off Airport Road.
12. M&T, TD Bank, and WSFS Bank are along Paoli Pike.
13. Any time. One never knows when mail is coming in Inverness Village.
14. The posted speed limit is 15 mph, but we encourage slower.
15. This was the summer retreat for John Sullivan, a Philly lawyer.
16. This is Ridley Creek. Enjoy it also along the nature trail.
