

FROM THE MAIN GATE

April 2025

From time to time, usually during inclement weather, Hershey's Mill villages and the surrounding community may lose electricity. While most outages last two or three hours, a few have lasted for more than 24 hours. During power outages lasting any length of time, the Security Department receives dozens of phone calls from residents who find themselves in inconvenient, or even emergency, situations that could be prevented with some advance planning. Listed below are a few suggestions that can better prepare people for a power outage:

1. When the power is out, your automatic garage door opener will not operate. For those residents with detached garages, be sure you know how to operate your emergency door release.
NOTE: Always take your house keys with you when you leave home, as you cannot rely on entering your home through your garage during a power outage.
2. Keep plenty of flashlights around the house and have extra batteries handy.
3. Keep a charged cell phone somewhere in your house, as your home phone will no longer have dial tone, unless you have a backup battery for your Fios equipment.
4. **If you are dependent on any life-saving electrical devices (oxygen pumps, medical monitors....et), please contact your medical supply company to discuss options for a backup power supply.**
5. Turn off any appliances that you were using when the power went off. When the power goes out unexpectedly, a person may have been using their stove, heating pad, or other device that requires monitoring. A person might leave the house and forget that these items were left running. If the person is not home when the power is restored, then the stove, heating pad...etc. may begin operating again without any supervision...causing a fire hazard.

Please call PECO at 1-800-494-4000 to report that your power is out, and for all outage-related questions, as PECO requires account holders to report their problem directly and does not provide the Security Department with any more information than they give to residents.

Please do not call Security for information regarding a power outage, as this ties up our phone line; and people with security-related issues or emergencies cannot get through.
